

cones::recolouring
::Solver

```
graph BT; A[cones::recolouring::Solver_NU] --> B[cones::recolouring::Solver];
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a white box labeled 'cones::recolouring::Solver_NU'. A blue arrow points upwards from this box to a gray box at the top labeled 'cones::recolouring::Solver', indicating that Solver_NU inherits from Solver.
